“ Customer testimonials all over the globe ”

Total Bodyshop Supplies has been partners with Etalon in New Zealand for 5 years. Alex and his team have made it easy for us with great support, advise and by acting on the information we give them. The products, they introduce, have all been well tested, since each product has to meet a standard to protect the Etalon Name. Our customers trust Etalon, they ask for it by name. I am proud to call him a friend and business partner. If you are looking to build a long-term partnership with someone who you can trust, then Alex and Etalon are the brand for you.

*Kelvin Daly,
Owner of Total Bodyshop Supplies
Wellington, New Zealand*

We introduced Etalon into our product portfolio and it has been very well received by our customers. B.S.Supplies distributes Etalon as the brand that represents quality and innovative products. We have received fantastic reviews for the technically advanced Air Dry UHS 975 Lacquer which enables substantial end user savings via its rapid cure times.

*Stephen O'Reilly BA (Hons) Bus Ad,
Sales Director of B.S.Supplies (Stoke on Trent) Ltd
Stoke-on-Trent, United Kingdom*

Glad I switched over to Etaclear, it flows great and doesn't leave any orange peeling effect.

*North Panels
Australia*

When I wish to achieve perfect polishing results I use the ET1010 Absolute Cut Compound in combination with Etalon Nano Sealant. I also prefer Etalon Airdry 975 because of its fast drying properties.

*Diamantis Chantzis,
Technical consultant of BMW Velmar
Greece*

I recommend Etalon Nano Sealant to my customers, even for the car windows; excellent hydrophobic properties. The ET1010 Absolute Cut Compound is easy to work with, since it does not dry under the sun. I also recommend ET2010 Absolute Compound which provides easy correction of the holograms and fast polishing.

*Theodoros Tsagalis,
Technical consultant of Custom Design
Greece*

Etalon Etaprime is one of the best 2K primers we have ever used!

Primers

1K ACRYLIC PRIMER

1K primer with high filling power. Ideal for new parts, fast jobs and spot repairs. Can be applied on metal, steel, galvanised steel and aluminium. Easy application and sanding. VOC compliant.

ET5600AP-01	primer 1kg, grey	6 pcs/cart.
ET5600AP-04	primer 4kg, grey	4 pcs/cart.

2K EPOXY PRIMER 3:1

Chromate free versatile epoxy primer with anticorrosive protection for automotive, marine and industrial use. Can be used as an undercoat or as a final coating. Suitable as an adhesion promoter on metal, steel, aluminium or fiberglass. Applicable on surfaces that will be submerged in water. Easy application with roll, airless gun, electrostatic gun, HVLP or conventional spraying equipment.

ET5400EP-A075	primer 750ml, grey	6 pcs/cart.
ET5400EH-B025	hardener 250ml, grey	12 pcs/cart.

ETAPRIME 4:1 2K HS ACRYL PRIMER

High Solids, premium quality 2K acrylic filler/primer. High filling properties. Easy sanding. Fast drying. Can be applied wet-on-wet if diluted by 30% with Etalon Acrylic Thinner. Suitable for spot repairs or full repaints. VOC compliant.

ET4400AF-10/G SET	set 1L+250ml hardener, grey	6 sets/ cart.
ET4400AF-40/G	4L, grey	2 cans/ cart.
ET4401HF-100	hardener 1L	6 cans/ cart.

ETABASE 4:1 2K HS ACRYL PRIMER

2K acrylic primer 4:1 with good filling properties and easy sanding. Suitable for applications on polyester putty, primed and painted surfaces. Can be overpainted by all automotive coatings. VOC compliant.

ET440VAF-10/B SET FAST	set 1L+250ml hardener, black	6 sets/ cart.

ET970-**25	2.5L hard.	4 pcs/cart.

* hardener slow/normal/fast/extra fast

975 UHS AIRDRY 2K CLEARCOAT 2:1

Etalon AirDry UHS 975 clear coat is a real breakthrough in automotive refinishing industry. Fast drying process without compromising on quality and ease of use. It is a VOC compliant clear coat, ready for polishing without any force drying. Only after 60-70 minutes at 20C° the surface is totally cured, or after 6-7min at 60C° in a spray booth. It can be applied in 1,5 coats without any flash of time or in 2 full coats with 5 min flash off time. The final result is a deep, crystal clear finish with excellent durability, UV resistance and no gloss reduction.

- VOC < 420g/l compliant
- User friendly - only one hardener needed
- Suitable for both partial and full-vehicle refinishing jobs

Etalon AirDry UHS 975 is a part of a new line of products Thunderline which is dedicated to boost productivity and profits.

ETALON MIRACLE ADDITIVE

Etalon Miracle is a specially developed additive for the automotive acrylic clearcoats, including MS, HS and UHS types. Miracle Additive replaces the conventional acrylic thinner and improves significantly any clearcoat's properties. Adding a small amount of the product (5% for MS, 6% for HS and 7-8% for UHS clears), it increases the gloss level, reduces the probability of matting, gloss reduction, as well as solvent popping and runs at high thickness applications.

ET999-GA01	1L	12 pcs/cart.
------------	----	--------------

ETATHIN ACRYLIC THINNER

Full range of pure acrylic thinners suitable for dilution of acrylic based clearcoats, primers and base coats. Available in slow, normal and fast versions.

Polishing Compounds

ET1010

Absolute Cut Compound

Cuts and polishes in one step action. Extra cut compound is designed for the most demanding polishing tasks, removes scratches from abrasive P1500 and leaves a deep glossy surface.

ET1010	bottle 1kg	6 pcs/cart.
ET1010/250	bottle 250g	12 pcs/cart.

APPLICATION

By polisher with ETALON black diamond wool pad or white diamond polishing pad.

ET2010

Absolute Compound

Ultimate one-step polishing compound suitable for the fast removal of scratches. Excellent hologram free gloss on dark colors and scratch-resistant coatings. Recommended for polishing of freshly painted cars.

ET2010	bottle 1L	6 pcs/cart.
--------	-----------	-------------

APPLICATION

By polisher with the range of ETALON polishing foam pads depending on the task.

ET1001

Fast Cut Compound I

Perfect for paint runs, dust nibs, "orange peel" and deep scratches.

ET1001	bottle 1kg	6 pcs/cart.
--------	------------	-------------

APPLICATION

By polisher with ETALON white, blue polishing pad or black diamond wool pad.

ET1003

Machine Polish III

New anti-hologram formulation. Enhances gloss without leaving swirls.

ET1003	bottle 1L	6 pcs/cart.
--------	-----------	-------------

APPLICATION

By polisher with ETALON orange or black polishing pad.

DO NOT MIX different compounds on the same pad!

Polishing Compounds

ET4004

Gloss Trap Sealant

Non-abrasive polishing glaze with a specially designed formula that penetrates paint and creates an invisible thin protective film on the polished surface.

ET4004 500ml 10 pcs/cart.

APPLICATION

By polisher with ETALON black polishing pad, by hand with foam applicator or soft polishing wipe.

NANO PROTECTIVE SEALANT

Protective sealant based on Nano technology, penetrates deep into clearcoat and provides long lasting protection, high resistance to UV and moisture. Leaves deep gloss on painted surfaces, gelcoat and fiberglass.

ET9503/250 250ml 6 pcs/cart.

APPLICATION

By hand with Etalon foam applicator and with Etalon microshine wipe or soft polishing wipe.

TOP INSPECTION

Spray for effective inspection of compounding processes. Perfect for cleaning of compound residues & for thorough inspection of the polishing process prior to next step. In order to save time on reworks, inspect the surface after each step with Top Inspection. Safe on all paint surfaces. Also recommended to be used with ETALON polishing clay.

ET/TOP-007 500ml 6 pcs/cart.

APPLICATION

By hand with ETALON microshine wipe or soft polishing wipe.

METAL POLISH

Polish for all metal parts. Chrome, brass, copper, nickel, stainless steel and other surfaces. Cleans, polishes, removes rust and leaves a protective film. Excellent results on gelcoat.

ET/MET-930/750 750ml 6 pcs/cart.

APPLICATION

By foam applicator or foam/wool ball with ETALON microshine wipe.

KIT FOR HEADLIGHTS & CLEAR COAT RESTORATION

ETALON kit 3 in 1 for headlights and transparent plastics (such as, motorcycle or boat plastic windshields). Also for painted parts, such as car mirrors or bumper restoration.

ET/KIT 3IN1	box
-------------	-----

Result of polishing job depends on the correct choice of compound & polishing pad.

This chart shows how to pick the optimal solution of compound/polish from ETALON system.

POLISHING SYSTEM GUIDE

1

Fresh Repair Coatings

- Fading out
- Runs
- Overspray
- Dust contamination
- Orange peel

2

Polishing/ Reconditioning the old paint

- Weather-worn paint
- Hazy paint
- Multiple scratches from car wash brushes

3

Hologram & Swirl removal / Gloss Enhancement

- Swirls
- Holograms
- Diminished Gloss

4

Restoration of headlights & non painted plastics

- Yellowish and hazy headlights
- Scratched and dull transparent plastics

5

Finishing/ Waxing

- Polished surfaces needed to be protected

To save time on reworks, inspect the surface after each time with Top Inspection.

For any further enquiries please visit www.etalon.gr & ask our technician.

ATTENTION!

Use different polishing discs for different compounds

Polishing machine speed max 2000-2500RPM

Clean the surface well with ETALON microshine micro-fiber wipe after each step

Check regularly surface temperature

Do not polish under the open sun

TIP!

While the 5cm polishing pads have longer durability, the 2,5 cm provide easier handling; especially on vertical surfaces.

POCKET FILTERS IN DIFFERENT SIZES

Pocket filters are installed in exhaust units for filtration of the fine particles from paint or clearcoat overspray. Pocket filter lasts for 400 hours of work.

ET/BAGF-NV	piece
------------	-------

VIRGIN ACTIVATED CARBON

Pelletized activated carbon is used in the exhaust units for removing solvent vapours from the air coming from a spray booth. Activated carbon must be replaced after 3000 hours of work or every 5 years.

ET/CARB-25	25kg	bag

SPRAY BOOTH PROTECTION

BMF

Booth Masking Film is a 5-layer film designed to protect internal sides of spray booths from overspray and dirt. Temperature resistance: 100°C. Application temperature: 12-40°C. Protective layers: five (5) polypropylene (PP) layers, 35 microns each, covered by low tack adhesive, each layer is marked from 1 to 5.

ET/BMF-W80 0.75m x 80m roll

BOOTH MASK

Booth tacky coating.

ET/C180-5 5L piece

APPLICATION

Applicable to the inner walls of the paint booth, creates clear tacky film which protects from dust and overspray. Easy to wash away with warm water.
