

ALLIGATOR

2K PROTECTIVE POLYURETHANE COATING

In Etalon we always listen to our customers. We know that cleaning the gun after the application of Alligator protective coating or common underbody coating is a time-consuming process. **This is why we provide the special application no maintenance gun ET/AUG-205 with disposable atomizing nozzles and plastic suction tubes.** Now you don't have to clean your gun, just dispose the nozzle and the tube.

Etalon no maintenance application gun is also suitable for application of underbody coatings.

- ✓ Improved viscosity allows much easier mixing and application
- ✓ Much higher UV resistance
- ✓ One universal catalyst for ease of ordering and reduced inventory

Black

Transparent
